February 2013

Multicyl and Unitized Tooling

The best way to punch your holes!

[Click image to learn why](#)

[To learn about other Multicyl applications click here.](#)

Multicyl: Boxed in Canada but *punching all over the world!*

Use our [Tonnage Calculator](#) to determine your force requirements.

To use our tonnage calculator select either the hole diameter or shear length option. Then select your material or fill in the tensile strength of the material you are using (KSI). Fill in the rest of the

data and hit calculate. You will be given the tonnage requirement and a list of potential Multicyl cylinders for the application.
