A reminder to all our customers and newsletter subscribers:

The combination of Multicyl and Unipunch is still the best solution for many hole punching applications!

If you have a new hole punching application or if you have Unipunch tooling you need to power give us a call at 905.951.0670 or send us an email.

Shown below are two recent gang punching applications using XL and DX series Multicyls.

Click the picture to see our Multicyl and Unipunch video.

FREE Tonnage Calculator

Use our [Tonnage Calculator](#) to determine your force requirements.

To use our tonnage calculator select either the hole diameter or shear length option. Then select your material or fill in the tensile strength of the material you are using (KSI). Fill in the rest of the data and hit calculate. You will be given the tonnage requirement and a list of potential Multicyl cylinders for the application.
