May 2012

By now you are familiar with the MLR adjustable punching machines offered by Multicyl. ([click here if you'd like a refresher](#)). As the popularity of this machine continues to grow we continue to offer new features to help our customers.

Our newest MLR option is a **digital readout system**. With this feature each Multicyl station has digital readout box easily accessible to the operator so that accurate positions can be achieved in a matter of seconds. **New set ups can be achieved for different parts in less than a minute!**

[Click here](#) or on the picture below to see the machine in action.

FREE Tonnage Calculator

Use our [Tonnage Calculator](#) to determine your force requirements.

To use our tonnage calculator select either the hole diameter or shear length option. Then select your material or fill in the tensile strength of the material you are using (KSI). Fill in the rest of the data and hit calculate. You will be given the tonnage requirement and a list of potential Multicyl cylinders for the application.
